The Board indicated that this application was mistakenly looked upon at the last meeting as likened to a retail location and how signage is approached in those areas. The Mayor stated that with this is a world headquarters for a corporation who is in 48 states, one of the top 10 employers in Strongsville, investing tens of millions of dollars into the community, and so the City would like to make special accommodations if necessary in a case such as this one. Board members also specified that this is a campus-like setting which it is largely used for their own employees, or for clients who are coming to visit for the first time. They also mentioned that this is the only development in recent history which is on three separate parcels. The Board noted that the signs are in essence directional signs due to their color which indicates which building they are directing you to. Tony Biondillo noted that when examining how the signage Codes came to be in this community, the banner relating Code was to prevent the large waving banners typically seen at car dealerships, and these are not that type. He stated that these "banner" signs were seen and approved by the ARB previous to coming before this Board for approval.

Mr. Evans – So this evening we have Union Home Mortgage with Blink Signs representing. Please come up to the microphone and give us your name and address for the record.

Mr. Dilonna – Vince Dilonna, 1925 St. Clair, Cleveland, Ohio 44114.

Mr. Evans – Thank you. We have engaged you back here this evening, and as I indicated in caucus I'd like to apologize first for having to bring you out here a third time. Other information has been provided to the Board members such as considerations and discussions and so forth about the fact that you are representing a research and development district that has three separate buildings. These are rather large buildings that will encounter a lot of people coming in both employees and people from the outside, and they need to identify those buildings and the correct parking lot to people coming in. The design you had provided with the color-coding we took into account signage on the buildings, but given the fact that they are multiple parcels spread over a quarter mile on Sprague Road it really means that it would be difficult for people to find the right place on this campus. Also because it is the research and development districts we compared it unfairly

to the retail district, and that probably should not have been done. We all tend to be a little sensitive about signage in town, and unfortunately your design got caught up in our thinking which was in a different direction. So again, my apologies for bringing you back out here again. Gentlemen is there anything else you need to talk about? I could have Mr. Dilonna talk about the signs, but I believe we've already been through all that.

Mr. Smeader – No.

Mr. Baldin – No.

Mr. Houlé – I have nothing.

Mr. Evans – Okay, Mr. Mayor, I don't know if you needed to say anything or if any other folks from the Building Department needed to make any comments?

Mayor Perciak – At this time, no thank you Mr. Chairman.

Mr. Evans – Okay. Again, given that this is a research and development district with the three buildings on three parcels, and a world headquarters for a partner in our City here, I will then entertain a motion. We'll take these one at a time.

Mr. Smeader – I make a motion to approve a request for a variance from Zoning Code Section 1272.14, which prohibits parking lot pole light signage and where three 12 SF parking lot pole light signs are proposed; property located at 8241 Dow Circle West, PPN 395-13-028, zoned Research-Development (RD).

Mr. Houlé – Second.

Mr. Evans – We have a motion and a second, may I have a roll call please?

ROLL CALL: ALL AYES MOTION PASSED

Mr. Evans – The motion has passed. On each of these variances there will be a 20 day waiting period during which time Council may review our decision. We now move onto the second item, and I will entertain a motion.

Mr. Houlé – I make a motion to approve a request for a variance from Zoning Code Section 1272.14, which prohibits parking lot pole light signage and where three 12 SF parking lot pole light signs are proposed; property located at 14843 Sprague Road, PPN 395-13-027, zoned Research –Development (RD).

Mr. Smeader – Second.

Mr. Evans – We have a motion and a second, may I have a roll call please?

ROLL CALL:

ALL AYES

MOTION PASSED

Mr. Evans – That then takes us to the third and final item. I will now entertain a motion.

Mr. Baldin – I make a motion to approve a request for a variance from Zoning Code Section 1272.14, which prohibits parking lot pole light signage and where three 12 SF parking lot pole light signs are proposed; property located at 14955 Sprague Road, PPN 395-12-001, zoned Research-Development (RD).

Mr. Houlé–Second.

Mr. Evans – We have a motion and a second, may I have a roll call please?

ROLL CALL:

ALL AYES

MOTION PASSED

Mr. Evans – So all three have then been approved pending review by Council. You'll be notified by the Building Department at the conclusion of the 20 days. Again with our apologies, you are done.

Mr. Dilonna – Thank you guys so much for your time. Thank you.

Mr. Evans – Okay, thank you. Is there anything else to come before the Board this evening? Then we will stand adjourned.

Mayor Perciak – Thank you all for taking the time.
