1242.07 CONDITIONAL USE PERMITS.

Conditional use permits shall be required for certain types of main uses as defined in Section 1250.02, generally publicly operated or a facility which affects the public interest. Such use may be permitted and desirable in certain districts but not without consideration in each case of the effect of the use upon neighboring land and the public need for the particular location. The application of the planning standards for determining the location and extent of such use is a planning function and not in the nature of a variance or appeal.

Enumerated throughout this Zoning Code are certain uses and the districts in which conditional uses may be permitted, provided the following standards are fulfilled and a conditional use permit is granted by the Planning Commission.

(a) Application. The application for such permits received from the proponent shall be submitted by the Building Commissioner to the Planning Commission. The Commission shall hold a hearing thereon, notice of which may be published in a newspaper of general circulation, or mailed to the owners of property contiguous to and across the street from the parcel for which a conditional use permit is requested, at least fifteen days before the hearing. The Commission shall take action upon such application within sixty days from the date of receiving such application. Failure to act within such period shall be deemed approval.

(b) Standards for Evaluating Conditional Use Permits. An application for a conditional use permit shall not be approved unless the following conditions and standards are complied with as set forth for the following districts:

(1) Residential Districts.

A. The proposed use is properly located in relation to any adopted land use or street plan, particularly to the collector and local street systems and pedestrian circulation.

B. When located on a local street the proposed use will generate the least possible traffic through a residential neighborhood.

C. The proposed use is necessary to serve the surrounding residential areas which cannot be served satisfactorily if the same use is located in a nearby less restrictive district where it may be permitted by right.

D. The location, design and operation of such use will not discourage the appropriate development or impair the value of the surrounding Residential District.

E. For temporary structures every conditional use permit shall be reviewed every six months and may be renewed only while the construction operations are pursued diligently.

(2) Business, Research, Service and Industrial Districts.

A. The proposed use is necessary to serve the community needs, and existing similar facilities located in a less restrictive or more remote district in which the use may be permitted by right are inadequate.

B. The proposed use is not closer than appropriate in the particular situation to schools, churches and other places of assembly.

C. The location, extent and intensity of the proposed use shall be such that its operation will not be objectionable to nearby dwellings by reason of greater noise, smoke, dust, odors, fumes, vibrations or glare than is normal or is permitted by the performance standards of the district.

D. The proposed use will form a harmonious part of the Business, Research, Service and Industrial District, taking into account, among others, convenience of access to and relationship of the proposed use to other permitted uses in the district;

E. The proposed use will be permitted in the proposed district rather than one in which it is permitted by right, because the applicant has demonstrated in its application to the Planning Commission that the proposed use is of only such limited nature and extent as is required to serve the needs of the district, or, when determined applicable by the Planning Commission, the needs of the community; and

F. The hours of operation and concentration of vehicles in connection with proposed use will not be more hazardous or dangerous than the normal traffic of the district.

(3) Game room and amusement arcade standards. In addition to complying with the above general standards, in the use of all or part of a structure for a game room or amusement arcade, the location and arrangement of amusement devices shall comply with the following specific standards:

A. As a part of the application for a conditional use permit, the applicant shall submit a floor plan, drawn to scale, showing the size, location and arrangement of each mechanical amusement device. For the purposes of this subsection, depth is measured perpendicular to any player or user side of an amusement device, and width is measured perpendicular to any non-player side of the device.

B. Non-tabletop devices. In addition to the actual floor plan dimensions of the device, an open area of five feet in depth shall be provided on any player side and an open area of three feet in width shall be provided on any non-player side, except where such non-player side is positioned adjacent to a structural wall.

C. Tabletop devices.

1. Designed to be played in a seated position: In addition to the actual floor plan dimensions of the device, an open area of four feet in depth shall be provided on any player side, and an open area of three feet in width shall be provided on any non-player side, except where such non-player side is positioned adjacent to a structural wall.

2. Designed to be played in a standing position, e.g. billiard tables, air hockey tables, shuffleboard tables, bowling machines: In addition to the actual floor plan dimensions of the device, an open area of six feet in depth shall be provided on any player side of the device, and an open area of four feet in width shall be provided on any non-player side, except where such non-player side is positioned adjacent to a structural wall.

D. The area and location requirements shall be met exclusive of any aiseways, corridors, passageways, or other circulation patterns necessary or required for applicant's business by the laws of the City or the State. The actual installation shall be

in conformity with the plans submitted as the basis for issuance of the conditional use permit.

(4) Oil and gas well standards. In addition to complying with the standards in paragraphs (b) (1) and (2) hereof and with the Fire Prevention Code of the City, the use of land to drill a new oil and gas well, to drill an existing well deeper, to reopen a well or to convert a well to any use other than its original purpose shall comply with the following standards:

A. As part of the application for a conditional use permit, the applicant shall submit:

1. A copy of the application for a drilling permit to be filed with the State, including the information required by Ohio R.C. 1509.06(A) through (N);

2. A block map of the area within a 500-foot radius of the drill site, which map reflects the location of the proposed well and distances therefrom all existing structures, the location of all natural waterways therein and existing oil, gas or fresh water wells therein;

3. A statement of the proposed drilling schedule from its commencement to its completion;

4. A design plan showing the location and method of construction of the proposed drive or roadway to the drilling and storage sites, the location and method of construction of storage facilities and the fence and landscaping of the well and storage facilities, accompanied by a proposed schedule for the completion of each of the foregoing;

5. A sworn statement that the principal purpose of the use of the well is and will be for directly supplying fuel to the owner and his heirs, successors and assigns, for use on the premises where the well is located; and

6. A copy of the spill prevention control and countermeasure plan for storage facilities having a capacity in excess of 1,320 gallons or single containers having a capacity in excess of 660 gallons.

B. As a prerequisite to approval of this conditional use, the Planning Commission shall find that:

1. The proposed well location, and its maintenance and operation, will not impede or interfere with development of the land upon which it is situated in accordance with and for the purposes set forth in the Comprehensive Plan of the City and this Zoning Code.

2. The principal purpose of the use of the well is and will be for directly supplying fuel to the owner and his heirs, successors and assigns, for the use on the premises where the well is located.

3. The production, processing, storage, keeping, transportation, sale or use of the substances and gases produced by the well, and the construction of the well and storage facilities, will comply with the performance standards set forth in Section 1262.10 (b) through (j) and the ordinances and regulations referenced therein. Such standards shall be applicable in a zoning district for all purposes of this conditional use, notwithstanding the district limitations set forth in Section 1262.10.

4. Vehicular access to the well and storage facilities will be provided from major arterial, industrial or collector streets and will not require the use of local collector or local streets for such access.

5. The location and the design plan and accompanying schedule provided for timely effective screening of such well, storage facilities and appurtenances from view from all surrounding structures and land use areas in one or a combination of the following manners:

a. Planting of landscaping, which shall include substantial dense all season plantings which grow to an average height of at least six feet within a three-year period.

b. Construction of a substantially solid wall or fence erected to a height of not less than six feet with complementary landscaping; or

c. The location of such well, storage facilities and appurtenances in relation to existing topography, structures and/or landscaping.

Upon making such findings, the Planning Commission shall forward the application and a report of its findings to Council for its confirmation and a determination as to whether or not the proposed use is consistent with the legislative purposes of this Zoning Code.

(5) Community-based residential care facility standards. In addition to complying with the standards in paragraph (b)(1) and (2), the use of land for a community-based residential care facility, family home or group home shall comply with the following standards and requirements:

A. Any family home and group home must be licensed by the Ohio Department of Mental Retardation and Developmental Disabilities.

B. Individual family homes and group homes shall not be located closer than 2,000 feet to one another.

C. The operator of each family home and group home shall register with the Building Department prior to the commencement of any operation and annually thereafter. To register, the operator, or the operator's designee, shall provide to the Building Department:

1. The name, address, and telephone number of the owner and operator of the property upon which the community-based residential care facility is located;

2. The name under which the facility shall operate;

3. The location, site and floor plan of the proposed facility;

4. A copy of the facility's current license and/or certificate from the Ohio Department of Mental Retardation and Developmental Disabilities;

5. A statement as to the maximum number of residents to reside in the facility, the general nature of their needs, and the type of assistance, support and supervision to be provided;

6. A statement outlining admission procedures and policies of the facility;

7. A copy of the residency rules of the community-based residential care facility and the rules for the storing and administering of medication;

8. Approval of the Fire Prevention office after inspection of the facility's compliance with the Fire Prevention Code as applicable to such facility (all family homes and group homes shall be fully sprinkled and include an interconnected smoke detection system); and

9. Approval of the Building Commissioner issued after inspection for compliance with the Building Code.

D. If the community-based residential facility is found to be in compliance with all of the aforementioned standards and requirements by the Building Commissioner, he shall issue an occupancy permit for the facility for a period of one year. Prior to the expiration of such one-year period, the facility shall be reinspected by the Commissioner and Fire Prevention Officer. If the Commissioner finds that the facility is operating in compliance with all applicable provisions of Section 1242.07, he shall renew the facility's permit for a period of one year.

E. The occupancy permit of any community-based residential care facility may be revoked by the Building Commissioner at any time if such facility is found in violation of any of the standards and requirements of Section 1242.10. In the event the license is revoked, the community-based residential care facility shall cease its operation immediately.

(6) In addition to complying with the requirements and standards in paragraphs (a) and (b)(1) of Section 1242.07, the sale of religious materials as an accessory use to a main use of land for church or other religious facility purposes shall comply with the following standards and requirements:

A. The accessory use of the sale of religious materials shall be conducted by or under the direction and control of the religious institution or organization occupying the main use on the zoning lot.

B. The materials offered for sale shall be substantially related to the furtherance and advancement of the worship or other religious purposes of the religious institution or organization occupying the main use on the zoning lot.

C. Such accessory use shall be conducted within the main building or an accessory building which has been approved by the Planning Commission.

D. The building area designated for such accessory use shall in no event exceed 2,500 square feet.

E. The main use and all accessory uses shall meet the off-street parking requirements of Chapter 1270 of the Zoning Code and in particular, where applicable, the mixed use standards as set forth in C.O. Section 1270.06(b).

F. The main use and all accessory uses shall meet the requirements and standards of Chapter 1256 of the Zoning Code.

(7) Wireless Telecommunication Facilities. In addition to complying with the standards in paragraphs (B)(1) and (2), the use of land for a wireless telecommunication facility shall comply with the procedures, standards and requirements set forth in C.O. Chapter 1273.

(8) Safeguards and conditions, In addition to complying with the above general standards set forth in this section, conditions appropriate to each particular application may also be set forth in the permit.

(9) Approval. The approval of a conditional use permit shall become null and void if the construction of the building or site improvements are not started within a six-month period after date of approval.

(Ord. 1998-71. Passed 7-27-98.)

1258.02 USE REGULATIONS; LOCAL BUSINESS DISTRICT.

vehicle in quantities customarily purchased by the ordinary traveler, except that the sale of alcoholic beverages of any kind is prohibited.
(Ord. 1994-262. Passed 6-19-95.)

1258.06 USE REGULATIONS; RESTAURANT-RECREATIONAL SERVICES DISTRICT.

Buildings and land shall be used and buildings shall be designed, erected, altered, moved or maintained in whole or in part in Restaurant-Recreational Services Districts only for the uses set forth in the following schedules and regulations:

(a) Main Buildings and Uses Permitted.

(1) The sale, serving and consumption of food, soft drinks, juices and ice cream in such places as drive-in, carry-out and sit-down restaurants. Places where food or beverages are not consumed within a building may be permitted only if a conditional use permit is granted in accordance with the standards set forth in Section 1242.07 of this Zoning Code.

(2) The sale, serving and consumption of alcoholic beverages, including dancing and live entertainment, provided a conditional use permit is granted in accordance with the standards set forth in Section 1242.07 of this Zoning Code;

(3) Commercial, amusement and recreational services, such as assembly and meeting halls, billiard halls, bowling alleys, dance halls, indoor theaters, ice and roller skating rinks and other social, fraternal, sport and recreational establishments, provided they are conducted within an enclosed building and sufficiently sound-insulated to confine the noise to the premises. A game room or amusement arcade may be permitted only if a conditional use permit is granted in accordance with the general and specific standards set forth in Section 1242.07 of this Zoning Code.

(b) Similar Main Uses Permitted. Any other restaurant or commercial recreational service facility not listed above or in any subsequent use classification and determined as similar by the Planning Commission in accordance with the standards set forth in Section 1242.08 of this Zoning Code;

(c) Accessory Uses Permitted. Any accessory use, such as storage of goods which are clearly incidental to conducting a restaurant or commercial recreational use, shall be permitted, provided such accessory use is compatible with the permitted main use.

(1) Mechanical amusement devices as defined in Section 1240.08(c)(19), provided, however, that a conditional use permit must be obtained pursuant to this section for the use of more than one device in the business premises;

(2) Accessory off-street parking and loading facilities as required in Chapter 1270 of this Code; and

(3) Signs: business, professional nameplate, directional, real estate and project, subject to the regulations as set forth in Chapter 1272 of this Code.

(Ord. 1981-148. Passed 10-4-82.)

1252.28 TEMPORARY BUILDINGS AND ENCLOSURES.

(a) Permitted Buildings and Uses. Temporary structures may be permitted in any Residential District if such structures are deemed necessary for construction operations of the dwellings and accessory buildings of the area for which a building permit has been issued, provided that:

(1) Such structures shall be limited to offices, yards and buildings for the storage of lumber, equipment and other building material, and to workshops for prefabricating building components.

(2) The operations and activities carried on within such structures shall not adversely affect the use of nearby dwellings by reason of noise, smoke, dust, odor, fumes, vibration, electrical disturbance or glare to a greater extent than normal in a Residential District that is being developed.

(3) The hours of operation shall be restricted to the hours between 7:00 a.m. and 6:00 p.m. and the concentration of vehicles attracted to the premises in connection with such use shall not be more hazardous than normal traffic in a Residential District that is being developed.

(4) All temporary structures shall be located at least 100 feet from the nearest occupied residential dwelling.

(5) All structures and yard storage areas are enclosed by a fence.

(6) A conditional use permit for such temporary structures has been applied for and approved along with special conditions that may be required in accordance with the provisions of Section 1242.07.

(b) Removal of Structures. All temporary structures shall be removed within thirty days after the completion of work on the premises for which a permit has been issued or if construction is not pursued diligently.

premises is owned by _____ and is located in a _____
_____ use Zoning District.

On behalf of the Company I hereby represent that the Company's proposed use complies with all of the Zoning Ordinances of the City including the Performance Standards set out in Strongsville's Codified Ordinance 1262.10 which Section reads as follows:

1262.10 PERFORMANCE STANDARDS

Any use established in a Research-Development, Commercial Service or General Industrial District, or an industrial use established in an Aviation Field District, after the effective date of this Zoning Code (Ordinance 1978-165, passed October 15, 1978), shall comply with the performance standards set forth hereinafter for the district in which such use is located as a condition precedent to occupancy and use. Any use already established in such Districts shall not be altered, added to or otherwise modified so as to conflict with, or to further conflict with, the performance standards set forth hereinafter for the district in which such use is located as a condition precedent to further use. Statements that such uses comply or will comply may be required, in writing, by the Planning Commission from the Owner. In cases of doubt, the City shall select and arrange for an independent survey by a professional engineer qualified in the particular field and the costs for the services shall be paid by the Owner.

- (a) **Enclosure:** All permitted main and accessory uses and operations, except off-street parking and aircraft storage, shall be performed wholly within an enclosed building or buildings. All raw materials, finished products and mobile and other equipment shall be stored within enclosed buildings.

1262.10 Performance Standards cont'd.

- (b) **Fire and Explosive Hazards:** The storage, handling and use of flammable or explosive materials shall be permitted only in structures having incombustible exterior walls, and all operations in connection therewith shall be provided with adequate safety and protective devices against hazards of fire and explosion as well with adequate fire-fighting and suppression equipment and devices standard to the operation involved.
- (c) **Dust, Smoke:** The emission of smoke, soot, fly ash, fumes, dust and other types of air pollution borne by the wind shall be controlled so that the rate of emission and the quantity deposited at any other district shall not be detrimental to or endanger the public health, safety, comfort or welfare or adversely affect property values.
- (d) **Odorous Matter:** The emission of odorous matter in such quantities as to produce a public nuisance or hazard beyond the lot occupied by the use shall not be permitted.
- (e) **Toxic or Noxious Matter:** The emission of toxic, noxious or corrosive fumes or gases which would be demonstrably injurious to property, vegetation, animals or human health at or beyond the boundaries of the lot occupied by the use shall not be permitted.
- (f) **Noise:** The sound pressure level of any operation on a lot, other than the operation of auto calls, bells, motor vehicles, sirens or whistles, shall not exceed the average intensity of the street traffic noise at the nearest Residential District, and no sound shall be objectionable due to intermittence, beat frequently or shrillness.
- (g) **Vibration:** Vibrations shall not be permitted beyond the lot line occupied by the use which would be perceptible without the aid of instruments.
- (h) **Radioactive or Electrical Disturbances:** Radioactive or electrical disturbances shall not be created which would adversely affect any form of life or equipment at or beyond the boundaries of the lot occupied by the use.

- (l) **Incineration Facilities:** Incineration facilities emitting neither smoke nor odor shall be provided, located within the main building. No garbage, rubbish, waste matter or empty containers shall be permitted outside of buildings.
- (j) **Waste Materials:** Liquid wastes shall not be discharged into an open reservoir, stream or other open body of water, or into a sewer unless treated or controlled so that the amount of solid substances, oils, grease, acids, alkalines and other chemicals shall not exceed the amount permitted by other codes of the State, County or City.
 - (1) **Waste Sampling:** Industrial wastes discharged into the public sewers shall be subject to periodic inspection and a determination of character and concentration of such wastes. The determination shall be made in the manner and as often as may be deemed necessary by the approving authority. Samples shall be collected by the approving authority in such a manner as to be representative of the composition of the wastes. Access to sampling locations shall be granted to the approving authority or its' duly authorized representatives at all reasonable times.
 - (2) **Analysis:** Laboratory procedures used in the examination of industrial wastes shall be those set forth in Chapter 1050. However, alternate methods for certain analysis of industrial wastes may be used subject to mutual agreement between the approving authority and the person. Determination of the character concentration of the industrial wastes shall be made by any qualified person or testing laboratory designated by the approving authority.

The person whose wastes are being tested shall promptly reimburse the City for the taking of samples, the sum of thirty dollars (\$30.00) for each day or part thereof that such samples are taken. The person or testing laboratory designated by the approving authority for the testing of the samples shall submit its' invoices for the costs of such testing directly to the person whose samples were tested and such invoices shall be promptly paid thereafter directly to the tester. (Ord. 1978-165 Passed 10/16/78).
