WHEREAS, on or about Monday, May 12, 2014, various unusual rainstorms and extreme weather conditions created emergency circumstances threatening the health, safety and welfare of certain of the City's residents and their properties; and

WHEREAS, in order to properly address such circumstances and notwithstanding the best efforts of the City's Department of Public Service, and Engineering Department, it has become necessary to enter into a contract for supplemental services to clean, maintain and/or repair certain City storm sewers, drainage facilities and appurtenances, whether located in the public right-of-way or in public easement areas, on an emergency basis, and as weather conditions have developed; and

WHEREAS, such actions have been and are undertaken only upon the approval and recommendations of the Mayor, Director of Public Service and City Engineer, and with an existing City contractor that can quickly mobilize resources, and which is totally responsive and proposes competitive and reasonable rates for such services; and

WHEREAS, it has and will become necessary to render payments for such emergency services on an on-going basis in order to facilitate additional services as they become required in order to clean up debris and conduct further maintenance and/or repairs as necessary.

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF STRONGSVILLE, COUNTY OF CUYAHOGA AND STATE OF OHIO, BY UNANIMOUS AFFIRMATIVE VOTE:

**Section 1.** That this Council finds and determines, as set out in Article V, §5 of the Charter, that there is an immediate and present emergency in the operation of the Department of Public Service of the City of Strongsville, in that it has become immediately necessary to enter into a contract, without public bidding, with **LAKE**

**COUNTY SEWER CO., INC.**, for various supplemental cleaning, maintenance and/or repair services to certain City storm sewers, drainage facilities and appurtenances, either within the public right-of-way or otherwise primarily on designated public easements, due to the severity of recent weather, in order to provide for the operation of the Service Department and Engineering Department and the proper maintenance of the City storm sewers, drainage facilities and appurtenances of the public storm sewer system within the City, to protect the health, safety, welfare and property of the residents, and to conserve public funds.

**Section 2.** That, for the reasons aforesaid, this Council hereby approves, ratifies and authorizes the Mayor proceeding with such emergency repair work necessary under the afore-described circumstances, and entering into a contract with **LAKE COUNTY SEWER CO., INC.**, without public bidding, in a total amount not to exceed \$100,000.00, for the supplemental cleaning, maintenance and repair services to certain City storm sewers, drainage facilities and appurtenances within the City, at the rates of compensation for services reflected in the price proposal attached as Exhibit A and incorporated herein by reference and which is approved.

**Section 3.** That the funds for the purposes of this Ordinance have been appropriated and shall be paid from the Drainage Levy Fund, General Capital Improvement Fund and General Fund.

**Section 4.** That it is found and determined that all formal actions of this Council concerning and relating to the adoption of this Ordinance were adopted in an open meeting of this Council; and that all deliberations of this Council, and any of its committees, that resulted in such formal action were in meetings open to the public in compliance with all legal requirements.

**Section 5.** That this Ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, property, health, safety and welfare of the City, and for the further reason that it is immediately necessary to approve, authorize and ratify the contract for payment of emergency work in order to provide for the continuity of services, operation, and maintenance of the City's Department of Public Service and Engineering Department, to properly maintain City storm sewers, drainage facilities and appurtenances, to protect the health, safety and welfare of the residents, and to conserve public funds.
